## Binder Requirements for Grades 3-6

2008-2009

### 1. General Subject Binder (stored in student's backpack)

*Provided By:* Parent

*Spine Size:* 1 1/2"

*Tabs:* two 5-tab sets, for a total of 10 tabs

*Type:* Extra-wide binder and binder tabs are **preferred**; otherwise, sheet protectors cover up the tab labels and make it difficult for students to locate items in their binder. The extra-wide tabs may usually be found on the shelves of office supply stores, but we have not seen extra-wide binders in stores. Extra-wide tabs can be used in regular binders. However, the extra-wide tabs extend out a bit past the edge of a regular binder, so tend to get worn more quickly. Ordering extra-wide binders and tabs online is easiest and most economical. Links to product samples are provided below to assist you.

Extra-wide binders are available **at a discount** from OnTimeSupplies.com, and are of excellent quality. We did not find them on the Office Depot or Staples on-line web sites, and they were quite a bit more expensive on Office Max online for the same Avery brand product.
