

LIVE OAK ACADEMY

Summer Art Workshops

Taught by Ruth Korch, internationally acclaimed

All Classes are 10:30 – Noon

Basic Drawing – June 23–26

Students will have the opportunity to experiment with three different drawing mediums: graphite, charcoal, and pastel. In the process, we'll be discussing some of the basic components of all art: quality of line, elements of shape, and light and shadow. Not only will we draw from studio still lifes, but we will also have fun drawing from our imaginations.

Italic Calligraphy – July 7–10, Ages 10 and up

Using a cartridge calligraphy pen, students will be introduced to the basic strokes and letter forms of this beautiful script, dating back from the time of the Renaissance. We will look into the history of Italic and even some of the fun stories behind the alphabet we use today. Students will have a finished piece of calligraphy on parchment paper by the end of the week, complete with a bit of illumination.

Basic Watercolor – August 11-14

Students will be introduced to some of the basic qualities and techniques of the wonderfully expressive world of watercolor. We will explore and experiment with these basic skills, dipping into color theory along the way. Then, we'll put them all together to complete a landscape painting by the end of the week.

Oil Painting – August 18-21

Students will need to have had previous art training to join this class. We will explore some of the basic qualities of oils and the brushwork that best expresses them. The class exercises will be focused on creating an understanding of values (light and form), and the importance of breaking a composition into shapes. We will work from a studio still life and students will have a finished canvas by the end of our time together. Hopefully their appetites will be whetted for the incredible opportunities that oils give for creative expression.
