In addition, with each artist, students will engage in related art projects. Whether it's working with pastels for Degas' ballerina's, or watercolors for Homer's seascapes, this course gives students a little taste of a number of mediums, and a big taste of appreciation for some of the world's greatest art.

This choir is designed to develop the fundamentals of 4-part choral singing. Over the course of the year, students will progress in their understanding of vocal control, singing in parts, observing musical markings, and closely following the motions of the director. They will also fine-tune their ears in order to understand and duplicate musical subtleties such as vowel pronunciation, dynamics, phrasing, and expression. The primary objective of the choir is to instill in the students a desire to praise their Maker by singing good music well. In an age where mediocrity is encouraged, we strive to seek a higher musical standard for ourselves and for our students.
